Project description: (When will it be implemented? What will it look like? Why do you feel this is important for your classroom or the school?) \*

Winter is coming fast and when it rains, it pours! And we go outside to recess rain or shine! We are requesting some rainy day recess supplies for kindergarten. Our undercover area isn't very big (when there are 100 kids out there running around). Our goal is to keep them active and engaged with some exciting new supplies that will meet these needs. We have made a list of sturdy and water resilient items that will likely be used for several years to come. We will make sure that we show them how to properly care for them as well as how to collect and store them between recesses. Our list of requested supplies includes catch a ball, foam balls, ring toss, throwing disks, sidewalk chalk, and monster feet as well as a few bins to organize and a wagon to transport them. Thanks for considering!

Foam Dodge Balls	\$48.53 for 1 set of 6
