Project description: (When will it be implemented? What will it look like? Why do you feel this is important for your classroom or the school?) *

We are looking to purchase two additional credit card readers to be used at events. The outdated square card readers are no longer compatible with technology. The Zettle card reader allows us to accept all major credit cards, PayPal, ApplePay, and Venmo without the need to have a Venmo account of our own. We can easily set up all of the items for sale at an event, track what our guests purchase, and make sure that all monies collected are credited to the correct place. With the increased popularity of not carrying cash, this will make for seamless events and shorter lines for check out and purchase. We took in almost \$700 in credit card payments at Family Dance alone this year.
